Merlin Covers You with Five Professional Choices

PROFESSIONAL

Safety Covers

SmartMesh™

The Ultimate Mesh Cover!

U.S. Patent No. 6,886,187-100% Shade

Our exclusive patented mesh lets water through while providing 100% shade to significantly reduce algae growth and provide unmatched debris filtration. SmartMesh offers the highest abrasion resistance, tear strength, burst strength, and sunlight shading around! We back SmartMesh with a 15-year limited warranty.

Dura-Mesh II

The new standard in standard mesh!

When it comes to standard mesh covers, Dura-Mesh II has the industry's best combination of abrasion resistance, tear strength, burst strength and sunlight shading. It is 68% stronger than other standard mesh and provides 95% shade. We back Dura-Mesh II with a 15-year limited warranty.

Advanced Grade Mesh

Featuring industrial-strength material, great for commercial or high-load, high-stress, high wind applications, Advanced Grade Mesh provides a burst strength nearly double that of our competitor's standard mesh.

Safety Solid XLS

Extra Light • Extra Strong

Our Safety Solid cover offers security plus a complete barrier to water, dirt, dust and sunlight. Choice of Automatic pump or mesh drain panel. Backed by a 10-year limited warranty.

Solid covers are available up to approx. 2000 square feet.

Kaleidoscapes!

All the benefits of our Safety Solid covers, plus a choice of 12 colors. 15-ounce material construction with increased U.V. inhibitors keeps your cover looking better longer. Backed by a 10-year limited warranty.

Solid covers are available up to approx. 2000 square feet.

Your Merlin Professional Safety Cover Dealer

Secure your swimming pool with a professional safety cover to protect your investment and your loved ones.

Strength You Have to
See to Believe!

Why Merlin is Your Best Choice

The Merlin name is your assurance of a professional product - the best value for your investment to be found anywhere. Our products are your best choice because they are better designed to meet your needs ... better manufactured with better materials to withstand the elements ... and better supported over their lifetime. It's more than a claim; it's a mission that inspires everyone in our company to perform to the highest possible standards. After all, isn't your family and investment worth it?

SmartMesh™: The Ultimate Cover.

Want to get swimming sooner? Our patented SmartMesh™ cover features a high-tech weave that allows water to pass through while blocking sunlight and filtering debris down to 40 microns! Without sunlight, algae is less likely to grow, so you'll open your pool to cleaner water in the spring, maintain your pool with greater ease, spend less on chemicals and extend its life. It's the cutting edge in cover technology ... the best choice you can make for your pool!

U.S. Patent No. 6,886,187-100% Shade

See the back of this brochure to learn about our entire line of safety covers.

*Spring opening of an algae-free pool, covered all winter long by SmartMesh™**

Customized. Uncompromised.

A cover that's custom-designed for your pool is safer and provides better protection. A Merlin safety cover is CAD-designed and custom manufactured to accommodate steps, angles, objects and unique configurations without on-site additions that could compromise quality and safety.

* Condition of the pool at opening is based on several factors unique to each pool. The presence of algae when pool is closed, the chemicals used or not used at closing, nitrates, phosphates, weather, and time of opening can affect results.

Attractive. Protective.

Merlin covers work hard, are stronger and look better longer. Manufactured completely with U.S.A.-made materials and components that exceed industry standards, our covers feature unsurpassed thread and webbing strength, brass anchors and powerful stainless steel tension springs. Each showcases the latest technology to protect your pool against the relentless forces of nature, as well as the unpredictable nature of children and pets. Other covers simply pale by comparison!

Convenient. Ingenious.

Merlin safety covers feature an ingenious strap and anchor system that allows for easy installation and removal using a specially designed tool. Even with its professional protection, our mesh covers are lightweight, making them easy to install, remove and store. Others attempt to copy our innovations; a Merlin cover is the real deal.

- 1 Fit.** Computer-Aided Design and expert craftsmanship delivers the best fitting covers in the business.
- 2 Special Features.** Specially designed step-riser kits and/or cable systems close up gaps and ensure security for pools with unique construction features.
- 3 Materials.** Specifically formulated, reinforced vinyl or polypropylene cover sheet is supported by nylon - polypropylene straps. The straps are secured to stainless steel tension springs with a stainless steel buckle.
- 4 Strength.** Heavy-duty, triple stitched straps crisscross the pool surface, stretched tight by tension springs anchored in the deck. Although lightweight, Merlin webbing has a break-strength more than three times the government standard.
- 5 Hardware.** Stainless steel tension springs hook over machined-brass anchors set flush in your deck. Springs are attached and removed using a special tool to prevent unauthorized removal.
- 6 X-Tack.** Perimeter cross-straps are reinforced by sewing an "x" pattern stitch to lock the straps together.

3212 pound vehicle accidentally driven onto a 40' x 80' Dura-Mesh safety cover. Can you spot where the driver walked off to safety?
