Notes	To check	Which problem does the customer has?
Verify that the version of your mobile phone version is iPhone 4s or iOS 6.0 and onward, and update if required	Smartphone manufacture, smartphone model & OS version?	<ol style="list-style-type: none"> 1. Cannot find MyDolphin app in App Store / Google Play. 2. Problem to download the software from the APP store
The initial connection to the Dolphin using the app needs to be done when the smartphone is connected to the internet (by WIFI, 3G or 4G).	Does end-user has an active connection 3G/4G or WIFI? (Needed at the initial pairing step. Later on it is not important)	<ol style="list-style-type: none"> 1. Can't see any robot on the screen? 2. Problem to download the software from the APP store
	If there is internet connection and still can't see robot to check with Amir if the Serial number of robot & serial number of motor unit are o.k.	
	<p>The floating cable well connected to the Power supply.</p> <p>To get closer to the power supply</p>	<ol style="list-style-type: none"> 1. Not succeed to connect to the robot?

A young boy with blonde hair is sitting on the edge of a swimming pool, splashing his feet in the water. He is wearing a white tank top and dark shorts. He is holding an ice cream cone in his right hand. A woman with dark hair is sitting behind him, looking on. The water is splashing up, creating a large spray of droplets. The background is a blurred view of a house and some greenery.
